

## CBI FOCUS

### *A Bible Education At The Speed Of Life*

Our courses are fast-paced, life-oriented and collaborative—just like the world we prepare you to minister in.

The focus of CBI can best be encapsulated in words like innovative, transformational, life changing and immersive.

Innovative because today's standard educational format is well-over 100 years old and designed to meet the need for past centuries. Today's nanosecond digital age demands new ways of meeting the needs of a 21st century world with its demanding, individualized pace. The typical educational institution no longer keeps pace with the need to work and learn at the same time.

Transformational because our focus at CBI goes way beyond the learning of facts, figures and dates to a Biblical approach to life-change for you and those you disciple and mentor. God delights in the butterfly metamorphosis of life from within for each believer.

Life-Changing because you can expect increased Bible knowledge, ministry skills, and for your daily spiritual walk to be dynamic and more fully displaying Christ in you—your Hope of Glory.

Immersive because of the spiritual desire of the Lord of Creation to baptize each growing believer by submerging him into the water of His written Word.

**THAT IS THE VERY FOCUS OF Clarkston Bible Institute!**
